Instructions for the Reusable Giant Balloon Kit

1 To fill: Screw main plug into Balloon and unscrew top cap. To deflate open main plug again.

2 Inflate Swooper Balloon using Air Pump. **No Helium Needed!** Replace cap and close tightly. Set aside.

3 Add Pole Cap to Top Pole.

4 Insert Top Pole, cap end first, all the way into Swooper Balloon.

5 Slide Balloon Base, flat side first, onto Top Pole until base is under Balloon.

Tighten both thumb screws

*Balloon should be resting on Balloon Base.

6 Slide Bottom Pole into Top Pole with Balloon attached.

7 Insert Swooper Balloon and Poles into Base: For Tire Base; kick under Tire. Do NOT drive over base. Insert Bottom Pole into Tire Base.

For Ground Spike; Hammer into Ground. Insert Bottom Pole into Base.

Converting from Swooper Flag Kit to Giant Swooper Balloon Kit

1

Swooper Flag and Pole Kit with Tire Base.

2

Remove Swooper Flag from Pole. Fold and set aside.

3

Remove Top and Middle Pole. This Middle Pole now becomes the Top Pole of the Swooper Balloon Kit!

4

To fill:
Find opening and unscrew smaller top cap.

Inflate Swooper Balloon using Air Pump.
No Helium Needed!

Replace cap and close tightly.
Set aside.

See Image 1 & 2

5

Add Pole Plug to Top Pole.

See Image 3

7

Attach Top Pole to bottom Pole,
Insert into Tire Base or Ground Spike.

See Image 6-8

6

Insert Top Pole, Capped end first,
all the way into Swooper Balloon.

Slide Balloon Base, flat side first,
onto Bottom of Top Pole until base is under
Balloon. Tighten both thumb screws.

*Balloon should be resting on Balloon Base.
